

RAHUL SATISHKUMAR

(210) 778-6560 | rahul.satishkr@gmail.com | [LinkedIn](#) | [GitHub](#)

EDUCATION

University of Texas at Dallas

Bachelor of Science in Computer Science

GPA: 3.35

Expected May 2028

TECHNICAL SKILLS

Languages: Python, Java, C++, R

Libraries/Frameworks: NumPy, Matplotlib

Tools: Git, VS Code, Excel, LaTeX, Google Workspace

Concepts: Numerical Methods, Reinforcement Learning, Generative AI

EXPERIENCE

Java Full Stack Developer Intern | Caytm Technologies | May 2026 – Present

- Ongoing

Research Assistant | University of Texas at San Antonio | March 2024 – May 2024

Computational Methods for Power Flow Analysis

- Investigated computational approaches to solving power-flow equations and studied reinforcement learning as a framework for developing future autonomous solution-finding agents
- Implemented and compared three numerical algorithms (Bisection, Newton-Raphson, Gauss-Seidel) in Python using NumPy for vectorized computation and Matplotlib for visualization
- Built a rough approximator tool in Python, iteratively tuned against Julia-based simulation outputs to validate accuracy
- Coordinated research documentation in LaTeX via Overleaf; tracked tuning experiments in Excel
- Presented findings to mixed technical and non-technical audiences using clear visualizations and plain-language explanations

PROJECTS

Project Name | Technologies Used | Month Year

- Then 2–3 bullets on what it does and what I built.

ACTIVITIES

Google Developer Student Club – Technical Officer | UTD | February 2026 – Present

- Collaborate with a team of Technical Officers to develop and deliver presentations and workshops on CS and technology topics to a student audience
- Contribute to workshop content creation and help communicate technical concepts clearly to attendees of varying skill levels

Google Developer Student Club – Finance Officer | UTD | May 2026 – Present

- Ongoing
